& FACILITATION AGENCY

**You innovate.
We market.**

What is AGNii?

Accelerating Growth of New India's Innovations (AGNii) is an initiative that aims to support the ongoing efforts to boost India's innovation ecosystem. It does this by connecting innovators across industry, individuals and the grassroots to the market and thus helping them commercialise their innovative solutions. It will provide a platform for innovators to bring their market-ready products and solutions to industry, thereby propelling India into a new era of inclusive economic growth.

AGNii will be implemented by Invest India, as a project under the leadership of the Cabinet Secretary of India and the Principal Scientific Adviser to the Government of India.

Commercialisation Process

1 Call for Applications

Through multiple channels targeting innovators in government labs, academic institutions and individual innovators.

2 Initial Screening

Basic check to eliminate spam, and ensure that the application meets the eligibility criteria.

3 Internal Evaluation

Evaluation of commercial merit, technological maturity and overall quality of the application. Feedback will be given to candidates who do not qualify, following which they will be invited to reapply.

4 Selection Screening

Interaction with the innovator for further assessment.

5 Market Assessment & Report

Selection of innovations for market assessment. Preference will be given to market-ready innovations with the maximum economic/job creation benefit.

6 Market & Commercialize

AGNii Project Managers to work closely with shortlisted innovators for successful time bound commercialization.

Ecosystem

AGNIi Services

For the Innovator – Institutional & Individual

- Gateway to Industry
- Commercialisation Support

- Innovator-Industry Meetups
- Knowledge Sharing
- Open Innovation Challenges

For the Industry

- Gateway to Innovations
- Access to Scientific Community
- Collaborative Research with Academia
- Access to National R&D Labs
- Open Innovation Challenges

Overview of the AGNii Hub

AGNii virtual hub is an online platform that connects all stakeholders of India's innovation ecosystem - enabling them to discover, connect and engage with each other.

The portal will host institutional researchers, startups, grassroots tinkerers, academic institutions, investors, incubators, mentors, government bodies and enthusiasts.

The hub will also host India's largest repository of innovations accessible to buyers and solution-seekers globally.

Stay up to date with the latest developments in the innovation space, and learn from case studies and success stories.

About Invest India

Invest India, the country's National Investment Promotion and Facilitation Agency, is constituted under the Department for Promotion of Industry and Internal Trade (DPIIT), Ministry of Commerce and Industry. It shall be the executing arm of AGNii. Invest India focuses on sector-specific investor targeting and development of new partnerships to enable sustainable investments in India.

About the Office of the Principal Scientific Adviser to the Government of India

The Office of the Principal Scientific Adviser to the Government of India was set up primarily to evolve policies, strategies and missions for the generation of innovations. The office provides support systems for multiple applications. It also generates science and technology tasks in critical infrastructure, economic and social sectors in partnership with Government departments, institutions and industry, as well as functions as the Secretariat to the Prime Minister's Science Technology and Innovation Advisory Council.

Dr. K Vijay Raghavan was appointed Principal Scientific Adviser to the Government of India in 2018.
