SECTION 2: INSTRUCTIONS TO BIDDERS
Preface

Invest India is set up as a non-profit venture under the Department for Promotion of Industry & Internal Trade, Ministry of Commerce and Industry, Government of India. Operationalized in early 2010, the Agency has been set up as the dedicated investment promotion agency (IPA) for attracting investments into the country in a structured, focused, and comprehensive manner.

**Invest India** is the first point of reference for foreign investors, and investment promotion and facilitation constitute the core mandate of the Agency. Its services include providing quality input and support services to Indian and overseas enterprises — through granulated, sector- and state-specific information, assistance with location identification, expedition of regulatory approvals, facilitation of meetings with relevant government officials, organization of investment road shows and roundtables, and aftercare services that include initiating remedial action on problems faced by investors by involving the government department concerned.

As the Swachh Bharat Abhiyan movement of Government of India gathers momentum in its path to a cleaner and more sustainable future, the next stride in this direction aims to overstep waste and pollution management and transforming this menace into productive avenues of energy and growth.

The Waste to Wealth Mission is one of the nine scientific missions of the Prime Minister’s Science, Technology, and Innovation Advisory Council (PMSTIAC). The Mission is spearheaded by the Office of the Principal Scientific Adviser (PSA), Government of India. The Mission aims to identify, test, and validate technologies that recover value from waste, and have proven the viability of their business models. These technologies will be piloted at Mission Sentinels, that will demonstrate solutions for India’s critical waste challenges and contribute to conserving, restoring and enhancing India’s land, air, and water resources. These Sentinels are being selected in consultation with State Governments and Central Ministries.

To help achieve goals of the Mission, the Office of the Principal Scientific Advisor of India (PSA) has established a 'Project Management Unit' (PMU) at Invest India, India’s National Investment Promotion & Facilitation Agency.

The deployment data, as well as the management lessons generated from each project, will be replicated at various sites across India. The pilot projects would be established by the national and international
The PMU is inviting proposals for selection of a “Facilitating Agency (FA)” for assisting the PMU in receiving online proposals, primary screening of the received proposals on well-defined parameters by constituting expert committee(s), providing analytical reports on competitive edge of the proposals over existing technologies, facilitating presentations of the screened/primarily shortlisted proposals before the expert committee(s), conducting onsite technical and financial due diligence of the shortlisted technologies after presentations, submission of site visits (technical and financial due diligence) reports to PMU to assist the experts in their final assessment process. About 20 proposals in a year are expected to be undertaken for onsite technical and financial due diligence.

Around 3 to 4 challenges would be floated in a year by the PMU under the programme focusing of thrust areas namely urban and rural solid waste, biomedical waste, organic waste, plastic waste, industrial hazardous and non-hazardous waste, water bodies, sewages, e-waste, etc. inviting online proposals from national as well as intentional applicants and each call for proposal may attract around 300 to 350 proposals. The expert committee, after considering the technical and final assessment report would recommend few best technologies/proposals for financial support for setting up of pilot plants.

The FA will also be required to develop Standards/criteria for grading these Waste Management Technologies based on their performance during the pilot run and also the process of evaluation using the standards to enable institutionalization of the deserving technologies through the GeM portal for larger dissemination and use by the States.

Evaluations will be based on documentary evidence submitted by the bidder with respect to pre-qualification / evaluation / selection criteria. Each responsive proposal will be given a technical score (Ts). A Proposal shall be rejected at this stage if it does not respond to important aspects of the RFP, and particularly the Terms of Reference or if it fails to achieve the minimum technical score indicated in the Data Sheet.
2.23.3 The proposal shall be rejected if bidder does not fulfill the eligibility criteria or the validity period of the proposal is less than 120 days.

2.23.4 During the process of evaluation of the technical proposal, the bidder will be required to make presentation on its Proposal covering Experience/ Technical Proposal including Implementation Methodology, Team Composition, Work Schedule, and Activity Schedule. The Financial Proposal of the bidders who meet the minimum qualifying mark will be opened one by one & the qualified bidder will then share the password of the protected file during the videoconference. These Financial Proposals of the bidders who meet the qualifying mark as indicated in the Data Sheet shall be then opened, and the prices read aloud and recorded.

2.24.3 Financial proposals of only those bidders will be evaluated, who secure a minimum of 70% marks in the technical evaluation. The proposal with the lowest total bid value as given in FORM FIN 2 shall be given a financial score of 100 and other proposals given financial scores that are inversely proportional to their total bid value.

2.25 Combined Evaluation

2.25.1 Based on the criteria in item No. 20 of Data Sheet the combined score shall be obtained by weighing the technical and financial scores in the ratio of 80:20 and adding them up. Based on combined weighted score for technical and financial, the bidder shall be ranked in terms of
total score obtained. The proposal obtaining the highest combined score in evaluation will be ranked as H-1 followed by the proposals securing lesser marks as H2, H3, etc. The bidder securing the highest combined marks will be considered for award of the contract.

Example:

As an example, the following procedure will be followed. The minimum qualifying marks for technical qualifications is 70 and the weightage of the technical bids and financial bids is kept as 80:20. If in response to the RFP, 3 proposals, A, B & C are received. The technical evaluation committee awards them 75, 80, and 90 marks respectively. The minimum qualifying marks are 70. All the 3 proposals are, therefore, found technically suitable and their financial proposals will be opened after notifying the date and time of bid opening to the successful participants.

If the evaluation committee examines the financial proposals and the quoted total bid values are as under:

<table>
<thead>
<tr>
<th>Proposal</th>
<th>Total Bid Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>INR 120</td>
</tr>
<tr>
<td>B</td>
<td>INR100</td>
</tr>
<tr>
<td>C</td>
<td>INR 110</td>
</tr>
</tbody>
</table>

Using the formula LTBV / TBV, where LTBV stands for Lowest Total Bid Value and TBV stands for Total Bid Value, the committee will give them the following points for financial proposals:

\[
\begin{align*}
A & : \frac{100}{120} \times 100 = 83 \text{ points} \\
B & : \frac{100}{100} \times 100 = 100 \text{ points} \\
C & : \frac{100}{110} \times 100 = 91 \text{ points}
\end{align*}
\]

In the combined evaluation, thereafter, the evaluation committee will calculate the combined technical and financial score as under:

\[
\begin{align*}
\text{Proposal A} & : 75\times0.80 + 83\times0.20 = 76.6 \text{ points} \\
\text{Proposal B} & : 80\times0.80 + 100\times0.20 = 84 \text{ points} \\
\text{Proposal C} & : 90\times0.80 + 91\times0.20 = 90.2 \text{ points}
\end{align*}
\]

The three proposals in the combined technical and financial evaluation will be ranked as under:

<table>
<thead>
<tr>
<th>Proposal</th>
<th>Total Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>76.6 points : H3</td>
</tr>
<tr>
<td>B</td>
<td>84 points   : H2</td>
</tr>
<tr>
<td>C</td>
<td>90.2 points : H1</td>
</tr>
</tbody>
</table>

Proposal C at the total bid value of INR 110 will, therefore, declared as winner and recommended for
approval, to the competent authority.

In the event of a tie in the final scores, the agency having the higher Technical score amongst the two would be preference.

2.26 **Information**

2.26.1 Information relating to evaluation of Proposals and recommendations concerning awards shall not be disclosed to the bidders who submitted the Proposals or to other persons not officially concerned with the process. The undue use by any bidders of confidential information related to the process may result in the rejection of its Proposal and may adversely affect its prospects.

2.27 **Taxes**

2.27.1 The bidder shall include in Bid Price all local taxes and duties as applicable on amounts payable by the Agency under the Contract. All taxes, duties and other impositions as applicable in India shall always be deemed to be included in the Financial Proposal.

2.27.2 The Financial Proposal shall include all commercial implications and all applicable taxes.

2.27.3 Bid/Contract price shall remain fixed for the entire Contract period. In case an agency is selected for a specific segment of the scope, the cost associated with the aforementioned section will be considered as the Contract price.

2.28 **Award of Contract**

2.28.1 The bidder securing the highest combined score will be considered for award of Contract. Invest India may, after hearing all technical presentations, choose to evaluate the vendors on specific sections of the scope of work, thus consider only the costing for the technically evaluated sections during the financial bids.

2.28.2 **Invest India** shall award the Contract to the selected bidder by issue of Letter of Award (LOA) and notify all bidders who have submitted proposals after award is accepted by the selected bidder.

2.28.3 The selected bidder is expected to commence the assignment on the date and at the location specified in the LOA/Contract.
2.28.4 If the selected bidder does not sign the Contract within the stipulated period or does not submit the Performance Guarantee within time, the LOA may be cancelled and EMD may be forfeited and the bidder securing the next higher combined marks will be considered for award of Contract.

[Technical approach, methodology and work plan are key components of the Technical Proposal].

You are suggested to present your Technical Proposal divided into the following two chapters:

a). Technical Approach and Methodology,

b). Organization and Staffing

a). **Technical Approach and Methodology**: In this you should explain your understanding of the objectives of the assignment/job, approach to the assignment/job, methodology for carrying out the activities and obtaining the expected output, and the degree of detail of such output.

This is where you present us with some strategies and measures to do a financial analysis and how you would go about executing them. Ensure you cover the “Why” for each idea. While we love to hear ideas which are crazy and out of the box, we focus a lot on relevance. Make sure you have a clear understanding of the objectives of the assignment/job, the technical approach and methodology for execution of the activities, and degree of detail required to achieve the objectives.

b). **Organization and Staffing**: The Bidder should propose and justify the structure and composition of the team. Bidder should list the main disciplines of the assignment/job, the key expert responsible, and proposed technical and support staff.

Our belief system focuses a lot on the people we will be interacting with on a day to day basis. It’s very important that you get your A team on board for this assignment as it will definitely be an integral part of the decision making.
