ii. Evaluators of Technical Proposals shall have no access to the Financial Proposals until the technical evaluation is concluded.

2.22 Evaluation of Technical Proposals

iii. Proposals which are not supported by adequate proof of the Signatory’s Authority or are not accompanied with proof of payment of EMD and Bid Processing fee will not be evaluated.

iv. The Evaluation Committee shall evaluate the Technical Proposals only for those bidders who satisfy the pre-qualification criteria as referred in Clause No. 3 of Data Sheet. The technical proposals will be evaluated based on their responses to the Terms of Reference, applying the evaluation criteria, sub-criteria, and point system specified in the Data Sheet. Evaluations will be based on documentary evidence submitted by the bidder with respect to pre-qualification / evaluation / selection criteria. Each responsive proposal will be given a technical score (Ts). A Proposal shall be rejected at this stage if it does not respond to important aspects of the RFP, and particularly the Terms of Reference or if it fails to achieve the minimum technical score indicated in the Data Sheet.

a. The proposal shall be rejected if bidder does not fulfill the eligibility criteria or the validity period of the proposal is less than 120 days.

b. During the process of evaluation of the technical proposal, the bidder will be required to make presentation on its Proposal covering Experience/ Technical Proposal including Implementation Methodology, Team Composition, Work Schedule and Activity Schedule. The date and time of the presentation will be intimated individually.

2.23 Public Opening and Evaluation of Financial Proposals

i. After the technical evaluation is completed, the bidders shall be informed in writing about the time and location for opening the Financial Proposals. Bidder’s attendance at the opening of Financial Proposals is optional but it shall be recorded by all present.

ii. Financial Proposals shall be opened publicly in the presence of the bidder’s representatives who choose to attend. The name of the bidders whose technical proposal is found responsive (i.e. identified bench mark) shall be read out. The Financial Proposal of the bidders who meet the minimum qualifying mark will then be inspected to confirm that they have remained sealed and unopened. These Financial Proposals of the bidders who meet the qualifying mark as indicated in the Data Sheet shall be then opened, and the prices read aloud and recorded.

iii. Financial proposals of only those bidders will be evaluated, who secure a minimum of 60% marks in the technical evaluation. The proposal with the lowest total bid value (Part A and Part B) as given in FORM FIN 2 shall be given a financial score of 100 and other proposals given financial scores that are inversely proportional to their total bid value.
2.24 Combined Evaluation

i. Based on the criteria in item No. 20 of Data Sheet-Part II the combined score shall be obtained by weighing the technical and financial scores in the ratio of 70:30 and adding them up. Based on combined weighted score for technical and financial, the bidder shall be ranked in terms of total score obtained. The proposal obtaining the highest combined score in evaluation will be ranked as H-1 followed by the proposals securing lesser marks as H2, H3, etc. **The bidder securing the highest combined marks will be considered for award of the contract.**

Example:

As an example, the following procedure will be followed. The minimum qualifying marks for technical qualifications is 60 and the weightage of the technical bids and financial bids is kept as 70:30. If in response to the RFP, 3 proposals, A, B & C are received. The technical evaluation committee awards them 75, 80, and 90 marks respectively. The minimum qualifying marks are 60. All the 3 proposals are, therefore, found technically suitable and their financial proposals will be opened after notifying the date and time of bid opening to the successful participants. If the evaluation committee examines the financial proposals and the quoted total bid values are as under:

<table>
<thead>
<tr>
<th>Proposal</th>
<th>Total Bid Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>INR 120</td>
</tr>
<tr>
<td>B</td>
<td>INR100</td>
</tr>
<tr>
<td>C</td>
<td>INR 110</td>
</tr>
</tbody>
</table>

Using the formula LTBV / TBV, where LTBV stands for Lowest Total Bid Value and TBV stands for Total Bid Value, the committee will give them the following points for financial proposals:

- **A**: \( \frac{100}{120} \times 100 = 83 \) points
- **B**: \( \frac{100}{100} \times 100 = 100 \) points
- **C**: \( \frac{100}{110} \times 100 = 91 \) points

In the combined evaluation, thereafter, the evaluation committee will calculate the combined technical and financial score as under:

- **Proposal A**: \( 75 \times 0.70 + 83 \times 0.30 = 77.4 \) points.
- **Proposal B**: \( 80 \times 0.70 + 100 \times 0.30 = 86 \) points
- **Proposal C**: \( 90 \times 0.70 + 91 \times 0.30 = 90.3 \) points.

The three proposals in the combined technical and financial evaluation will be ranked as under:

- **Proposal A**: 79 points : H3
- **Proposal B**: 90 points : H2
- **Proposal C**: 90.5 points : H1

Proposal C at the total bid value of INR 110 will, therefore, declared as winner and recommended for approval, to the competent authority.

In the event of a tie in the final scores, the agency having the higher technical score amongst the two would be given preference.
2.25 Information
ii. Information relating to evaluation of Proposals and recommendations concerning awards shall not be disclosed to the bidders who submitted the Proposals or to other persons not officially concerned with the process. The undue use by any bidders of confidential information related to the process may result in the rejection of its Proposal and may adversely affect its prospects.

2.26 Taxes
i. The bidder shall include in Bid Price all local taxes and duties as applicable on amounts payable by the Agency under the Contract. All taxes, duties and other impositions as applicable in India shall always be deemed to be included in the Financial Proposal.
ii. The Financial Proposal shall include all commercial implications and all applicable taxes should also be included in the Financial Proposal.
iii. Bid/Contract price shall remain fixed for the entire Contract period.

2.27 Award of Contract
i. The bidder securing the highest combined score will be considered for award of Contract.
ii. Invest India shall award the Contract to the selected bidder by issue of Letter of Award (LOA) and notify all bidders who have submitted proposals after award is accepted by the selected bidder.
iii. The selected bidder is expected to commence the assignment on the date and at the location specified in the LOA/Contract.
iv. If the selected bidder does not sign the Contract within the stipulated period or does not submit the Performance Guarantee within time, the LOA may be cancelled and the bidder securing the next higher combined marks will be considered for award of Contract.

**Type 2:** A portable device only to detect the presence or absence of bacteriological contamination
**Type 3:** A portable device to test one or more parameters. The package of parameters may be selected by the innovator. It is to be kept in mind that device must be able to test following parameters:

<table>

It is suggested to package the parameters depending on history of occurrence of contaminants in particular area. The likely presence of contaminants in different type of area is provided as below:

<table>
<thead>
<tr>
<th>Package No</th>
<th>Type of Drinking Water Sources</th>
<th>Parameters to be tested</th>
</tr>

<tbody>
<tr>

<tr>

<td>Particular mining contaminants</td>
</tr>
</tbody>
</table>

The above package of the parameter is suggestive in nature, the participants can package parameters in their own way for each type of drinking water sources and/or areas with known contaminants.

The proposed solution should focus on the following:

i. The solution shall comprise a design of a portable device which should detect relevant water quality parameters depending on the geographical areas

ii. The portable device should be able to detect the water quality accurately and provide information if the water quality is acceptable, permissible or non-fit to consume

iii. The detected value of the water quality parameters should be in digital format output

iv. The portable device should be easy to carry and handle

v. The portable device should be easy to calibrate

vi. The portable device should have an in-built power supply, if necessary

vii. The portable device should at least detect the presence/absence of the biological contaminations

viii. The portable device should have low operation and maintenance

ix. A detailed user manual must also be provided for the portable device

x. The portable device may also have provision for data transfer
2. Program Overview

The details of the ‘Innovation Challenge’ are as follows:

Launch of the Challenge → Online Application Process → Shortlisting of Startups/MSMEs/Innovators → Conduction of Masterclasses → Startups/MSMEs/Innovators Pitch to Expert Evaluation Committee → Selection of Top 10 Startups/MSMEs/Innovators → 9 Months’ Incubation Program

An Expert Evaluation Committee shall select 10 Startups/MSMEs/Innovators, which will receive 9 months of incubation support. The incubation program will consist of two phases:
- 6 months of physical incubation for Proof-of-Concept (PoC) development
- 3 months of business development support

If a selected Startup/MSME/Innovation is at an early stage, they may make use of physical incubation for PoC development, while Startups/MSMEs/Innovations at later stages may take only business development support.

Therefore, the offerings by the incubation partner (IP) may be divided into two packages:

<table>
<thead>
<tr>
<th>Package</th>
<th>Offerings</th>
</tr>
</thead>
</table>
| Package 1: PoC Development Support | - Physical Incubation  
- Access to lab and other infrastructural facilities for product development  
- Access to testing facilities  
- Mentor-Matchmaking  
- Mentoring Sessions  
- Business Workshops  
- Investor Connects & Investor Workshops  
- Networking Sessions  
- Other relevant incubation support |
| Package 2: Business Development Support | - Mentor-Matchmaking  
- Mentoring Sessions  
- Business Workshops  
- Investor Connects & Investor Workshops  
- Networking Sessions  
- Other relevant incubation support |

The selected Startup/MSME/Innovator may choose to take Package 1 and Package 2 or just Package 2, depending on the stage of their innovation or business.
*Note – Incubation Partner shall be a part of the Evaluation Committee that will select startups/ MSMEs/ innovators for receiving incubation support.

The startups/ innovators/ MSMEs selected for receiving incubation support would also be provided with an ‘Idea to PoC’ grant (Seed Grant) up to INR 25 Lakh. The grant will be disbursed to the innovators, startups, or MSMEs in milestone-based tranches by Invest India.

Timelines for milestones of the project shall be decided by the Evaluation Committee after due-diligence approval. The Incubation Partner shall be a part of the Evaluation Committee deciding the milestones and granting approval for disbursal of the tranches.

For the disbursement of 1st tranche, Evaluation Committee would evaluate on the following criteria:

i. Idea and solution usefulness
ii. Potential for growth
iii. Uniqueness
iv. Proposed utilisation of grant

The Incubation Partner would conduct a monthly review meeting with the selected innovators, startups, and MSMEs to gauge the progress made by these selected entities. This would require all the selected entities to submit detailed presentations on the progress and provide utilization of the grant received. The Incubation Partner will submit a monthly report to Invest India on the same.

For the 2nd and 3rd tranche, Evaluation Committee would evaluate on the following criteria:

i. Exponential growth potential
ii. Team Competence
iii. Early signs of growth
iv. Current revenue and external confidence
v. Overall performance

Where necessary, the Committee may also recommend having a technical review of the idea to be done before the award of the grant.
